CLEAR VIEW

ON THE HIGH SEAS

High-quality glazing for everything that floats.

Not just any boat

Boat windscreens are subject to heavy wear from wind, weather, improper cleaning agents and sometimes even a bump when mooring and therefore need to be replaced more frequently. BSA is the perfect partner to manufacture custom-fit replacements for your boat. We know our way around the world of sailing and motorboats - for over 25 years.

INDIVIDUAL

HIGH QUALITY

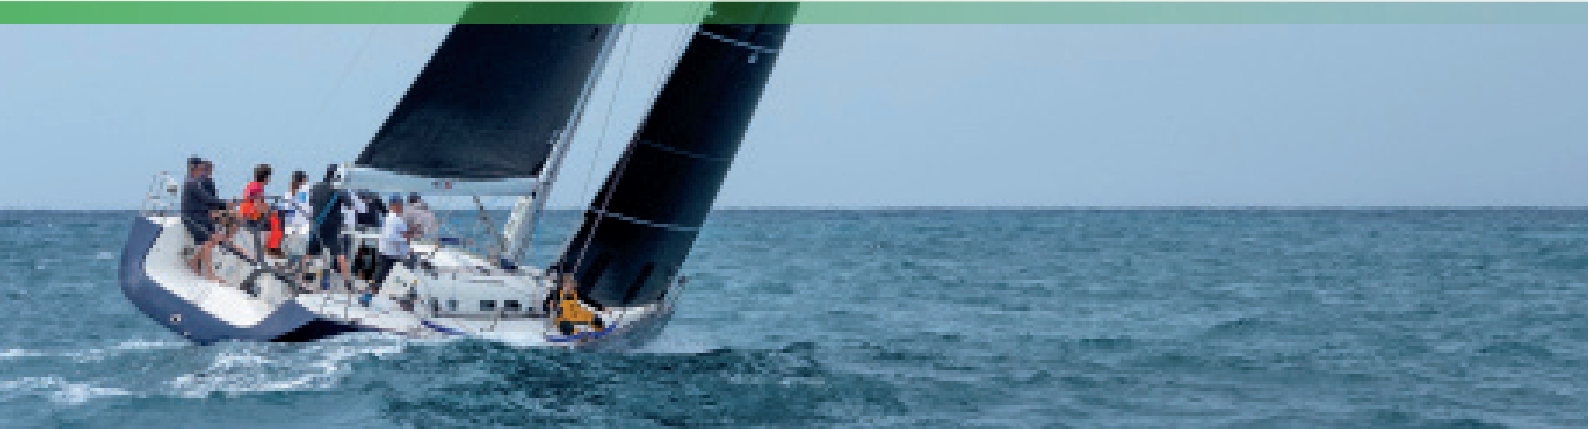

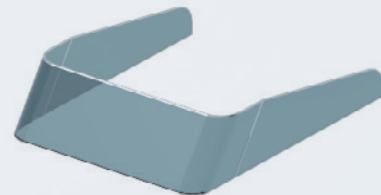

SUSTAINABLE

Quality - made to measure

We produce your new windscreen individually customised and exactly to your specifications. You have a free choice of material thickness, shape and colour, e.g. for the railing, as well as curved panes, hatch covers and bulkheads.

Professional and fast

All we need to ensure a speedy replacement is the damaged sample or a digital CAD drawing. Our experienced technicians will produce a brand new copy according to your exact specifications, including all customised extras. It doesn't matter which manufacturer produced the original. Get in touch with us!
